**2019-2020 Goals and Plan June 6,2019**

Overview . . . . . 52

Goals Summary . . . . . 53

Goal 1: All Students at WSC Academy will improve English Language Arts Proficiency . . . . . 54

Goal 2: WSC Academy will increase student exposure to careers and college post-secondary opportunities through field trips, work study, and career workshops . . . . . 61

Goal 3: All Students at WSC Academy will improve Science proficiency . . . . . 63

Goal 4: All Students at WSC Academy will improve Social Studies Proficiency . . . . . 67

Goal 5: All students at WSC Academy will improve Math proficiency . . . . . 71

Goal 6: Higher Performing Student Achievement . . . . . 74

Goal 7: All students in the subgroups of special education, English language learners, and homeless will be provided with services appropriate to their individual needs so their overall achievement will increase in all content areas . . . . . 75

Activity Summary by Funding Source . . . . . 80

## **Introduction**

The SBDIP is a planning tool designed to address student achievement and system needs identified through the school's comprehensive needs assessment (CNA). Additionally, the SBDIP provides a method for schools to address the school improvement planning requirements of Public Act 25 of the Revised School Code and the Elementary and Secondary Education Act (ESEA) as applicable.

# **Improvement Plan Assurance**

## **Introduction**

During the 2018-2019 school year, schools will have two options for Goals and Plans. 1. Update Goals and Plans, if necessary, based on analysis of data and Program Evaluation; 2. Complete and upload the Abbreviated Goals and Plans template into ASSIST, based on analysis of data and Program Evaluation.

**Improvement Plan Assurance**

<b>Label</b>	<b>Assurance</b>	<b>Response</b>	<b>Comment</b>	<b>Attachment</b>
1.	Which option was chosen for Goals and Plans?	Goals and Plans in ASSIST	3 year plan is updated annually and is currently in ASSIST	

# **Improvement Plan Stakeholder Involvement**

## **Introduction**

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

## **Improvement Planning Process**

### Improvement Planning Process

**Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.**

All staff are members and active participants on the School Improvement Team (SIT). The plan is reviewed at the monthly meetings to analyze the progress we are making on the current plan and revise as needed. Also, throughout the year, we address and analyze the four data points--demographic, process, achievement and perception data. Additionally, student focus groups are used to help students feel comfortable and to fully participate in the SI process. In addition to the Parent/Community Advisory Board we have representatives from the Management company who participate in SI meetings throughout the year. Meetings were held at various times of the day and year, so we could maximize participation. Time is built into the schedule (Every Friday morning) to ensure we have adequate time to participate in the process. Parent's are surveyed regularly to gather feedback and implement changes based on the input of stakeholders. In addition, time is always allotted at Parent Nights to ask and respond to input from stakeholders. Stakeholders are selected through open call requests via Parent Nights, newsletters, and conferences in coordination with participants willingness to volunteer time and be involved in the SIT.

**Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.**

Administration--Lead the process, schedule meetings and ensure group had all information needed

Teachers/para pros--Data analysis--serve on committees (cross content)

Students--Participate in focus groups and surveys

Parents--serve on SI team, participate in surveys and focus groups

Management Company--Representative to serve on team

Board Members--invited to be on team. Receive reports quarterly at Board meetings and support the school initiative

Community Partners--Participate in the Advisory Board and participate in programs at school to help implement plan (Volunteer in the school as Mentors, etc)

**Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.**

Final Plan is published and available in hard copy as well as on the website. Monthly meeting notes are published and available for all stakeholders. Quarterly updates are shared via newsletters, and updates at the Board meetings are also provided for all stakeholders. SIP information is available at Parent/Title I information nights that are conducted each semester.

# **Title I Schoolwide Diagnostic**

## **Introduction**

This diagnostic tool is aligned to requirements for Title I Schoolwide schools. The Comprehensive Needs Assessment must be completed prior to creating a new plan or annually updating an existing school improvement plan. Use the results of the Comprehensive Needs Assessment to develop Goals/Objectives/Strategies and Activities. Ensure that the Comprehensive Needs Assessment addresses all four types of data: student achievement data, school programs/process data, perceptions data (must include teachers and parents; student data is encouraged), and demographic data. The Comprehensive Needs Assessment must also take into account the needs of migratory children as defined in Title I, Part C, Section 1309(2).

## **Component 1: Comprehensive Needs Assessment**

### **1. How was the comprehensive needs assessment process conducted?**

The Comprehensive Needs Assessment process started at the beginning of the 2018-19 school year with the WSC Academy Improvement Team. The School Improvement team consists of our entire staff -- School Leader, Principal/Supervisor of Special Education, Counselor, 4 teachers, 2 paraprofessionals and a parent representative. . The SIP Team attends scheduled meetings throughout the school year to collect, analyze, and monitor demographic, process, perception, and achievement data. The preceding data points are collected periodically during the school year and analyzed at meetings organized by our Principal . Information is shared with students and parents throughout the year to include their feedback in planning.

Demographic and achievement data is collected at different points in the school year using attendance records and various assessment measures ( Plato Benchmarks, NWEA, M-Step, SAT, PSAT,. Demographic data is collected 2x per year at count and achievement data is collected quarterly. Individual student data is reviewed weekly. This data is also reviewed with the SIP team and results are shared with stakeholders.

Perception data is collected using an online survey for staff and students given in February of each year. With a count of 77 students we received 60 student response surveys. 100% our 11 person staff responded to staff surveys. Parents are given the option of completing an online or paper survey in February as well which produced 22% of family responses, more than ever received in previous surveys. The questions range from school safety to student learning. The results of the perception data is shared with parents through meetings and letters, and students through morning meetings and homeroom. Two Title I parent/community meetings during the course of the school year also provide stakeholders with an opportunity to share thoughts and ideas in a about WSC Academy and areas of strength and improvement in a more personalized face to face setting with staff and administrators present. The Parent Survey Analysis Report data indicates w41% of the parents like the support the staff, 23% like the learning environment and 9% like the school/class size.

Process data is collected in January when the staff is asked for input in completing the School System Review for the building. During the SIP meetings, the team looks for strengths, challenges, and trends among the collected data.

All stakeholders have the opportunity to review and analyze data to better understand how our programs and interventions can best meet the instructional needs of our students. Information is shared with staff to make decisions and determinations on how to improve and move forward. Information that is pertinent to parents and students is also shared as needed and in an appropriate format.

### **2. What were the results of the comprehensive needs assessment process? What information was concluded as a result of analyzing perception, student achievement, school programs/process, and demographic data?**

#### DEMOGRAPHIC

WSC Academy is a Tuition-Free, Public Charter School serving students in grades 9-12. WSC Academy offers non-traditional curriculum, with a flexible schedule, blended learning model in a technology enriched classroom. The blended learning platform was implemented during the 2015-2016 school year based on the Comprehensive Needs Assessment from the previous year. Blended learning students have the  
SY 2018-2019

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

opportunity to utilize technology and direct instruction for personalized curriculum. It is our philosophy that by offering quality education in an encouraging learning environment, students can be successful. We are dedicated to assisting students and their families with academic and vocational needs that have not been met in the traditional classroom. WSC Academy provides the tools necessary for successful lifelong learning and prepares our students for the future. The curriculum at WSC Academy follows the guidelines of the Michigan Merit Curriculum (MMC). Students enrolled at WSC Academy will need 20 credit hours to graduate beginning with the class of 2019. Students who are college bound are provided with guidance to graduate with 22 credits. Due to the structure of the program, students are able to graduate upon completion of their credits and walk during one of two graduation ceremonies during the school year. WSC Academy is under the Management of WSCES and the authorizing institution is Lake Superior State College. The Class of 2019 contains the first cohort of students who began high school in the 9th grade at WSC Academy and are graduating on time in four years.

WSC Academy began as a credit recovery school 7 years ago with one teacher, one administrator and 54 students. Currently WSC Academy is a blended learning school. Many (95%) of the students who elect to attend WSC Academy were not meeting with success in the traditional settings. Each student has a personalized learning plan. Students can work at their own pace with specific outcomes and timelines that are based on individual need. Students establish their learning plan and schedule and teachers and our counselor monitor and meet with students to ensure they stay on course.

For 2017-2018 our student body composition is:

9/10th grade 19 students (25%)

11th grade 24 students (31%)

12th grade 34 students (44%)

For 2018-2019 our student body composition is:

9th grade 12 students (17%)

10th grade 15 students (22%)

11th grade 15 students (22%)

12th grade 26 students (38%)

Free/Reduced Lunch 82%

Section 31a At Risk - 100%

Traditionally, a majority of our students enroll with us after 1-2 years in a traditional high school. This trend is beginning to decrease and more students are starting their high school career at WSC Academy. We have successfully transitioned from a credit recovery model into an all day school model. 2019 represents the first graduating class that has a number of students who have completed a 4 year program (Grades 9-12) at WSC Academy.

### Staffing Data

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

624 total classes passed by students in attendance at WSC during the 2016-2017 school year.

Previous Years:

NWEA Fall to Spring Testing 2015-2016:

Last year only able to measure growth of 17 students and this year 42-43 students maintained enrollment from fall to spring.

Reading: 24/42 (57%), increased 1/42 (1%) maintained, 18/42 (42%) decreased

7/10 lowest scores are special education students but have demonstrated the most growth.

Majority of students with lower growth or no growth are the top/higher performing students (this is a goal for next year in the school improvement plan)

- Last year average: 216 This year average: 224 = 8 point average increase

Math: 32/43 (74%) increased, 3/43 (7%) maintained, 8/43 (19%) decreased

4/10 lowest scores are special education students but again have demonstrated the most growth

- Last year average: 218 This year average: 225 = 7 point average increase

Language: 33/43 (77%) increased, 3/43 (7%) maintained, 7/43 (16%) decreased

6/10 lowest scores are special education students but have shown significant growth

- Last year average score: 216 This year average score: 221 = 5 point average increase

- PSAT 9: 6 total students

1/6 yellow

5/6 red (5/6 students special education)

- Average PSAT 9 total score: 638/1600

- Average reading score: 325/800

- Average math score: 314/800

- PSAT 10: 16 total students

6/16 green

2/16 yellow

8/16 red (3/8 special education students)

- Average PSAT 10 total score 798/1600

- Average reading score: 406/800

- Average math score: 391/800

- SAT 11: 17 total students

6/17 green

1/17 yellow

10/17 red (2/10 special education)

- SAT 11 average total: 871/1600

- Average reading score: 449/800

- Average math score: 421/800

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

- Scores increased with each year of SAT, demonstrating growth for each year students are at WSC. There has not been any information released on national averages and how we compare to other districts/states/nationally due to the new format of the SAT test this year. This is also the first year for Michigan to take the SAT so we cannot compare to last year's ACT scores.

- End of year attendance average 89%

- 20 total graduates - 8 in the winter and 12 in the spring

- 655 classes passed this year - almost every student passed at least 10 classes if with us for the full year. Overall it was an average of 8 classes per student. The most classes ever passed at WSC.

NWEA Results: Fall 2014-Spring 2015

(District - Ypsilanti and Brighton Campuses)

WSC Academy Average Yearly RIT Scores Change:

- Reading scores increased by an average of 8.7 points
- Math scores increased by an average of 4.1 points
- Language scores increased by an average of 6.1 points

\* This data is based on individual student's best performance over the course of the academic year

Winter 2015 - Spring 2015 Average RIT Score Change:

- Reading scores increased by an average of 6.1 points
- Math scores increased by an average of 1.04 points
- Language scores remained fairly steady with an average loss of 1.9 points

WSC District Versus Average Growth

Reading:

- Average growth nationally for this test is .5 RIT over the year
- Average growth for WSC Students: 5 RIT over the year

Math:

- Average growth for this test is 2.3 RIT over the year
- Average growth for WSC Students: 1 RIT over the year

Language:

- Average growth for this test is 1.2 RIT over the year
- Average growth for WSC Students: 2 RIT over the year

TOTAL Combined EXPECTED GROWTH: 4 RIT

ACTUAL Combined GROWTH: 8 RIT

Comparison of RIT increases of students enrolled in Read 180 Vs those not enrolled in Read 180

Discipline Data: - Fewer repeat suspensions this year - Primary reasons for suspension - noncompliance, dress code, phone

### Strengths:

- Enrollment is stable
- Attracting students at the beginning of high school -- moving away from a credit recovery program
- Discipline infractions are minimal
- Attendance rate improving
- Diverse Student Population
- Small size allows for a very personalized approach to programming

### Challenges:

- Continuing to "grow" enrollment
- Addressing the socioeconomic and socioemotional needs of a diverse student population
- Addressing teen pregnancy for both teen moms and dads
- Increasing parent engagement of students enrolled
- Maintaining programs when faced with limited financial resources

2018-2019: Data listed below on the average year long growth calculation and the average overall score calculation for each group.

Members in group 2 and 3 are overlapping in some cases. Data was collected only for students who attended WSC Academy for one full academic year and tested in both Fall and Spring.

### Data Collection Methods

Data was collected for the following groups:

1. General Population
2. Special Education Population
3. Students Receiving Reading Intervention Services

Data listed below is based on the average yearlong growth calculation and the average overall score calculation for each group. Members of Group 2 and 3 are overlapping in some cases.

Data was collected only for students who attended WSC Academy for one full academic year and tested in both Fall and Spring

General Education	2	216	221
Special Education	5	201	207
Reading Intervention	5	199	204

## ACHIEVEMENT DATA

Due to our size we do not have a top to bottom ranking. While MDE did not assign a report grade for 2014-2015, WSC is making progress at increasing the proficiency of students in all core content areas.

The state of Michigan transitioned to a new set of assessments for the 2015-2016 school year. For the first time, the state administered the PSAT and SAT instead of the ACT. The state assessment of M-Step was changed to only include science and social studies portions and eliminated the sections for reading and writing.

Our district continues to administer the NWEA/MAP assessment in the areas of Reading, Math, and English/Language Arts. This data has provided our school with valuable and reliable data to measure student growth and progress.

## Perception Data:

### Parent Perception Data:

6 parents responded to the online survey and overall the satisfaction was very high 4.13/5.0

100% agree that our school has high expectations for students in all classes

100% agree that our school provides a safe learning environment

100% of the parents responding agree that there are opportunities for stakeholders to be involved

84% agree that our school provides students with access to a variety of information resources to support their learning

84% agree that teachers provide an equitable curriculum that meets their child's needs

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

84% agree that our school provides qualified staff members to support student learning

67% of the parents agree that their child is prepared for success in the next school year

50% agree that all of their child's teachers keep them informed regularly of how they are being graded

### Staff Perception Data:

All staff responded with an overall rating of 4.64/5

100% agree that the staff/school uses a continuous improvement process to improve the program

100% agree that a data review process is in place to determine student instructional needs

100% agree that there is consistent grading/reporting

89% agree that high expectations are in place for all learners by school leaders

78% agreed the purpose is clearly stated and reviewed with Stakeholders with opportunities to participate

### Student Perception Data:

41 students responded to the survey. Student results were the lowest of the three groups surveyed with a rating of 3.63/5

100% of students agreed that teachers give work that challenges students

100% of students agreed that teachers help them understand and support them

45% of students agreed that students respect the property of others

35% agreed that students help each other even if they are not friends

### Strengths:

- All three groups believe that the school sets high expectations for all and provides the support for stakeholders to meet the expectations
- There is a sufficient amount of resources and they are used effectively
- There is high satisfaction with the Blended Learning Model
- Caring teachers and staff

### Challenges:

- There is a need to continue to address climate and culture among the students
- Providing more opportunity for parents to be involved and getting more parents to take advantage of the opportunity.
- Address the students with challenging curriculum but provide the needed supports for them to be successful
- Increasing parent participation in the surveys

### Process Data:

As a staff, we completed the system school review (SSR). The final document is a consensus of the staff. After analysis, it was determined

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

our greatest Strengths as a staff is in the following strands:

- Assessment (Assessment System and Data Analysis and Student Involvement in Assessment Process)
- Instructional Leadership (Vision for Learning and Guidance and Support for Teaching and Learning)
- Culture for Learning (Safe and Supportive Environment)
- Organizational Management (Intentional Practices)

Challenges:

It was determined our greatest challenges are:

- Instruction (Instructional Design, Effective Instructional Practices, Learning Environment, Reflection)
- Professional Learning Culture (Collaborative Teams and Collective Responsibility)
- Professional Learning System (Purposeful Planning and impact of Professional Learning)
- Communication (Approaches and Tools, Cultural Responsiveness)
- Engagement (Learning Opportunities , Partnerships -School Family and Community Partnerships)

Our staff recognizes that we need to use data to drive student instruction. The change in administration helped change the conversations, set new expectations and set the stage so that we can begin to address the needs. Professional Learning Opportunities each Friday (1/2 day) will provide the time needed and the staff has a renewed commitment to use this time more effectively.

Conclusion:

Based on our analysis of our achievement, demographic, process and perception data the staff at WSC was able to identify our greatest needs that will be addressed in our School Improvement Plan.

In conclusion, the results of comprehensive needs assessment indicate that WSC Academy must focus on all content areas especially writing, reading, math, science, and social studies with a priority focus on the achievement of students that are furthest away from meeting the standards and our students with disabilities. We will have goals in: reading, math, science, writing, and social studies Our objectives will focus on all students . We will continue to monitor performance of all students as well as the group as a whole. It is our belief that because there is little difference between the performance of our subgroups and our whole group as we address the needs of the whole, we will increase our subgroup achievement also. Our prioritized challenges are the following:

1)Based on our analysis of achievement and process data, we need to continue to improve the ability of the staff to understand and analyze data and to use that data to drive instruction in all core content areas. There is a need to develop a systematic process for collecting data in all content areas.

2)Based on our analysis of demographic and perception data, there is a need to address socioeconomic and socioemotional to support the needs of students, and families.

Parents most frequent request was to additionally prepare students for college and career readiness and also transportation. Students most frequent request was to have their cell phones while in school and to have more field trips.

Staff requests included finding additional ways to include stakeholders and parent participation.

3)Based on our analysis of achievement data, there is a need to continue interventions and to continue to expand our implementation of the blended learning model with a focus on the identified subgroups and priority content areas.

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

- 4) Based on our analysis of achievement, process, and perception data, professional development is needed to help the staff understand the diverse needs of our population and to enable the staff to effectively implement our building-wide strategies with fidelity.
  
- 5) Based on our achievement and perception data, we need to continue our focus on parent engagement and provide more opportunities for parents to learn strategies that will enable them to work effectively with their students at home. The challenge remains to improve communication and reach a broader cross-section of our parents and increase the number of parents attending activities and responding to surveys.
  
- 6) Based on our process and perception data analysis our challenge is to use our professional learning communities to effectively collaborate as teams to analyze student data and adjust instructional delivery.
  
- 7) Based on our achievement, demographic and process data, there is a need to provide interventions and support for our students who have the greatest needs (students who are parents and those who face the greatest socioemotional needs)
  
- 8) Based on our achievement, demographic and perception data we have a great need for additional counseling services for our most at risk students, including school to work transition support
  
- 9) Based on our demographic, perception and process data, we have a need to improve family engagement. The addition of a Parent Liaison will support parents, students and staff in strengthening relationships and opportunities for all families to be engaged

### **3. How are the school goals connected to priority needs and the needs assessment process? It is clear that a detailed analysis of multiple types of data was conducted to select the goals.**

The goals are aligned with the results of the needs assessment. Our four data points support the need to address each content area. Continuing to address parent engagement and college/career readiness will help our school become a stable and high performing organization.

Goal 1: Improve Writing Proficiency

Goal 2: Improve Science proficiency

Goal 3: Improve Math proficiency

Goal 4: Improve Reading Proficiency

Goal 5: Improve Social Studies Proficiency

The following subgroups have been identified: economically disadvantaged ,and students with disabilities and our plan will include objectives, strategies, and interventions to address any identified gaps.

### **4. How do the goals address the needs of the whole school population? How is special recognition paid to meeting the needs of children who are disadvantaged?**

A majority of our students were considered at risk at their schools of origin. They elect to attend WSC Academy because they want an opportunity to experience success. The small size of our school allows us to truly address each student as an individual and to develop a learning plan for each student that is designed to meet the student's needs.

Each of the above stated goals include objectives, strategies, and activities to meet the needs of all students with the focus on the students who are academically disadvantaged. Specifically our strategies assist instructional staff to do this in the following manner:

1) Professional Learning Communities provide the core of our professional learning and a structured system for reviewing data and addressing the needs of students in a timely manner. Each week a half day of Professional Learning is dedicated to this purpose.

2) Best Practices include differentiation strategies such as individual conferencing, re-teaching concepts, guided instruction and reading, extensive lessons using the rigor and blended learning model, independent activities, small groups, learning stations, layered curriculum, as well as delivering the district curriculum with fidelity. We also utilize push in support from our Title I Support Staff. Plato allows us to use an easily customized learning platform to meet the needs of students. The blended learning model allows for differentiation for each student. These best practices will address the needs of all students as well as those who are furthest away from meeting state standards.

3) MTSS addresses the needs of students on all levels in all content areas with focused interventions for students who are the most academically disadvantaged. This model allows us to provide timely and additional assistance to students with the greatest need.

4) Parent/Family engagement encourages parents and staff to work collaboratively to improve student achievement. It provides several opportunities throughout the year for families to be involved in our school program. Parents learn strategies that will help connect family and

school.

## **Component 2: Schoolwide Reform Strategies**

### **1. Describe the strategies in the schoolwide plan which focus on helping ALL students reach the State's standards.**

Based on our CNA the following resource based strategies have been selected to support student achievement in reading, writing, math, science, and social studies.

1) Professional Learning - Professional learning will focus on the needs of the individual staff members as well as whole building needs as a result of our needs assessment. Staff will engage in professional learning communities and strategically selected professional development to address achievement gaps and support student learning. Professional Learning Communities provide the core of our professional learning and a structured system for reviewing data and addressing the needs of students in a timely manner. The district wide teacher institute provides teachers with opportunities to participate in sustain professional development in the core content areas. A qualified Professional Development Consultant will provide monthly professional development for staff throughout the year on best practices to assist teachers in delivering core instruction and to support district initiatives.

2) Best Practices for All Students - All staff will provide research based instruction to all students on a daily basis. Best Practices include differentiation strategies such as individual conferencing, re-teaching concepts, guided instruction and reading, extensive lessons using the rigor and relevance model, independent activities, small groups, layered curriculum, as well as delivering the district curriculum with fidelity. We also utilize push in and small group or individualized pull-out support from our Instructional Interventionist and Resource teacher. Plato allows us to use an easily customized learning platform to meet the needs of students. The blended learning model allows for differentiation for each student. These best practices will address the needs of all students as well as those who are furthest away from meeting state standards. Finally, the school counselor provides additional support for the most at-risk students with mental health and/or social/emotional challenges.

3) MTSS - MTSS addresses the needs of students on all levels in all content areas with focused interventions for students who are the most academically disadvantaged. This model allows us to provide timely and additional assistance to students with the greatest need. Through the intervention hour staff is able to accelerate and differentiate instruction. High achieving students are able to participate in enrichment lesson and students in need of additional academic support participate in interventions designed to meet their individual need. The implementation of this model allows us to focus on increasing the achievement of all students as well as on addressing the needs of our subgroups including the bottom 30% to close the achievement gaps. The use of the PLATO platform will allow for the development of an Individual learning plan for each student to help meet the student's individual need and provide the needed support for success. PLATO combined with direct instruction by highly qualified teachers creates a blended learning model to support all learners.

4) Parent/Family Engagement -Staff will engage parents to support student learning by creating a strong school and family working relationship. Parents and staff will work collaboratively to improve student achievement. Several opportunities throughout the year will be provided for families to be involved in our school program. Parents will have the opportunities to learn strategies throughout the year at parent workshops which will help connect family and school. The engagement of parents in their child's education both at school and at home will help our students meet the college and career standards. The addition of a Parent Liaison will provide a more laser like focus on family engagement and will help the school become even more responsive to the needs of our families.

### **2. Describe how the research-based methods and strategies in the schoolwide plan increase the quality and quantity of instruction (which accelerates and enriches the curriculum).**

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

- 1) Professional learning will focus on the needs of the individual staff members as well as whole building needs as a result of our needs assessment. Staff will engage in professional learning communities and strategically selected professional development to address achievement gaps and support student learning. Professional Learning Communities provide the core of our professional learning and a structured system for reviewing data and addressing the needs of students in a timely manner. As a result of the participation in these professional learning opportunities the quality of lesson and instruction will improve based on best practices.
- 2) Best Practices for all students will improve the quality of instruction because staff will focus on instructional strategies that are aligned with students needs and learning styles. Differentiation strategies such as individual conferencing, re-teaching concepts, guided instruction and reading, extensive lessons using the blended learning model, independent activities, small groups, layered curriculum, as well as delivering the district curriculum with fidelity will assist teachers in finding ways to meet the needs of students who have a need for additional support..
- 3) MTSS addresses the needs of students on all levels in all content areas with focused interventions for students who are the most academically disadvantaged. This model allows us to provide timely and additional assistance to students with the greatest need. Through the intervention hours staff is able to accelerate and differentiate instruction. High achieving students are able to participate in enrichment lesson and students in need of additional academic support participate in interventions designed to meet their individual need. The implementation of this model allows us to focus on increasing the achievement of all students as well as on addressing the needs of our subgroups including the bottom 30% to close the achievement gaps.
- 4) As teachers and parents work together with a team approach the quality of instruction will improve. Increased communication will serve as a tool to facilitate student learning and an improvement of culture and climate.

### Quantity of Instruction -

WSC Academy offers students an opportunity to work outside of the school day through the on-line programs thus increasing instructional time and summer school is provided to extend the learning opportunities (in all core content areas) for students who have the greatest need.

- 1) Professional Learning - As teachers learn more strategies which will allow them to better use the instructional time, the quantity of instruction will increase. .
- 2) Best Practices - Through the utilization of the best practices strategies staff can focus instruction on students who have an academic need.
- 3) MTSS - All instructional staff will focus on the fidelity of number of minutes for each tier of instruction through the use of the intervention hour. The intervention hours provides an additional 120 minutes of instruction per day and is designed to meet the needs to the students in core content areas.
- 4) Parent/Family Engagement - By offering parent workshops parents will be afforded the skill set to better support their student at home. Learning is then reinforced within the home by parents due to a better understanding of the expectations.

### **3. Describe how the research-based reform strategies in the schoolwide plan align with the findings of the comprehensive needs assessment.**

All of the strategies were selected because they align with the findings of our needs assessment. Research supports that these strategies, when implemented with fidelity increase academic achievement. The commitment of our staff to implement the strategies on a building wide basis will provide a focused cohesive approach to addressing our priority needs. In addition to focusing on the achievement of all students in our priority areas of math, science and writing, we will implement these strategies when addressing our subgroups. The selected strategies

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

will also assist us in addressing our prioritize challenges which are:

- 1)Based on our analysis of achievement and process data, we need to continue to improve the ability of the staff to develop a deeper understanding and ability to analyze data and to use that data to drive instruction in all core content areas.
- 2)Based on our analysis of demographic and perception data, there is a need to address culture and climate to support the needs of staff, students, and families .
- 3)Based on our analysis of achievement data, there is a need to strengthen core instruction through the use of a blended learning model in all content areas as well as to continue interventions with a focus on the identified subgroups and priority content areas.
- 4) Based on our analysis of achievement, process, and perception data, professional development is needed to help the staff understand the diverse needs of our population and to enable the staff to effectively implement our building-wide strategies with fidelity.
- 5) Based on our process data analysis, a challenge remains in establishing a professional learning culture where we effectively collaborate as a team to address the needs of our building.
- 6) Based on our achievement and perception data, we need to continue our focus on parent engagement and provide more opportunities for parents to learn strategies that will enable them to work effectively with their students at home. The challenge remains to improve communication and reach a broader cross-section of our parents and increase the number of parents attending activities and responding to surveys. The Parent Liaison will provide more support for all families, especially the most at risk. The addition of an at-risk counselor will also support our most at risk students.
- 7) Based on the achievement data analysis there is a need to strengthen tier one instruction as well as continue interventions with the focus on the identified subgroups and the priority content subjects.
- 8) Based on our process and perception data analysis our challenge is to use our professional learning communities to effectively collaborate as teams to analyze student data
- 9) Based on our achievement, demographic and process data, there is a need to provide interventions and support for our students who have the greatest needs (students who are parents and those in danger of dropping out due to age (reaching the 19-20) The At Risk Counselor will have a positive impact and will allow more focus on the needs of these students.

#### **4. Describe the strategies in the schoolwide plan which provide a level of INTERVENTIONS for students who need the most instructional support in all major subgroups participating in the schoolwide program.**

All of the strategies address the needs of our students and will provide a level of intervention for students with the greatest academic needs.

MTSS provides tiered intervention based on individual student need. We will implement MTSS in all core content areas.

Professional learning is focused on providing teachers with strategies on how to close the gap and provide the appropriate intervention for all students especially those who are the furthest from reaching standards.

Best practices will include differentiation strategies such as individual conferencing, re-teaching concepts, guided instruction and reading, extensive lessons using the blended learning model, independent activities, small groups, learning stations, layered curriculum will allow teacher to support students and provide interventions for students who need the most instructional support.

### **5. Describe how the school determines if these needs of students are being met.**

Students meet with the Guidance Counselor to develop an Individual Learning Plan. The online system PLATO allows a customized program for each student. Additionally on site content teachers provide additional support. Progress monitoring for students receiving interventions occurs weekly and adjustments to interventions are made as needed. Advisory teachers monitor students progress and address needs quickly and provide additional supports as needed. PLCs meet weekly to review student, department, and school data. If students are not meeting their individual objectives , a team meeting is held to determine what additional supports of interventions are needed. The addition of the AT Risk Counselor will provide more opportunities for the most at risk students with additional interventions and support.

**Component 3: Instruction by Highly Qualified Staff**

Label	Assurance	Response	Comment	Attachment
	1. Do all of the instructional paraprofessionals meet the NCLB requirements for highly qualified? Provide an assurance statement. If no, what is the number that is not highly qualified and what is being done to address this? NOTE: A schoolwide program must have all highly qualified instructional staff.	Yes	WSC Academy assures that all instructional paraprofessionals meet the ESEA requirements for highly qualified.

	2. Do all of the teachers meet the NCLB requirements for highly qualified? Provide an assurance statement. If no, what is the number that is not highly qualified and what is being done to address this? NOTE: A schoolwide program must have all highly qualified instructional staff.	Yes	WSC academy assures that all teachers meet the ESEA requirements for highly qualified	

## Component 4: Strategies to Attract Highly Qualified Teachers

### 1. What is the school's teacher turnover rate for this school year?

The turnover rate is low. WSC Academy is entering its 8th year. WSC Academy is pleased that we are able to maintain a highly qualified staff. The Academy has experienced turnover in the Math position. The district is addressing this matter for the next year. For the second consecutive year all teachers are expected to return next year.

### 2. What is the experience level of key teaching and learning personnel?

WSC has a staff of 5 teachers.

0 - 2 years 0 Teachers

3 - 4 years 2 Teacher (40%)

5-10 years 1 Teacher (20%)

> than 10 years 1 Teachers (20%)

### 3. Describe the specific initiatives the SCHOOL has implemented to attract and retain high quality teachers regardless of the turnover rate.

We have a strong, cohesive team of experienced educators and expect little or no turnover. Our team members enjoy working collaboratively to create a challenging, student-centered learning environment. WSC Academy Ypsilanti created a group resume to demonstrate the high-level abilities of our staff and sent it to our greater community of parents, educators, students, and potential students and parents. By demonstrating that our small staff has over 200 years of collective experience in designing curriculum and starting up schools, in differentiated instruction and in establishing positive family relationships, we are building motivation and commitment in our existing staff and advertising that we are a team that other educators would want to be a part of. Staff is recruited by word of mouth, by individual recruitment of previous colleagues, and by posting open positions on K12 Job Spot, MAPSA (Michigan Association of Public School Academies), and Career Builder as well as on the school web site.

Some of the strategies we are using to attract and retain high quality teachers include:

- A strong, committed, passionate leader who sets high expectations for herself and the staff and is supportive in helping staff meet the expectations
- A warm caring building that has a family "feel"
- Open and expected collaboration;
- Open communication;
- All instruction is highly individualized to meet the interests and needs of each student;
- Sufficient team building and collaboration time built into weekly schedule;
- Our facility meets the needs of staff and students;
- Advanced technology with multiple fixed computer labs and mobile computer labs;
- School is designed for Advisory grouping, allowing teachers to bond with a smaller group of students for Team Building, Skill Building, and

Career and Life Planning.

**4. Describe the specific initiatives the DISTRICT has implemented to attract and retain highly qualified teachers regardless of the turnover rate.**

WSC Academy operates under the authorization of Lake Superior State University, because of their commitment to building a culture of innovation, individual teacher decision-making, and ongoing professional development. All training and professional development is drawn from the latest developments in pedagogy.

Some of the strategies the district is using to attract and retain high quality teachers include:

- Open and expected collaboration;
- Open communication;
- All instruction is highly individualized to meet the needs and interests of each student;
- Our facility meets the needs of staff and students;
- Advanced technology with multiple fixed computer labs and mobile computer labs;
- School district provides Read 180 and Math-support, training, and materials;
- School district provides Rapid Learning support, training, and materials;
- Competitive Salary Schedule and Benefits
- District Provided Professional Development

**5. If there is a high turnover rate, what initiatives has the school implemented to attempt to lower the turnover rate of highly qualified teachers?**

NA

## **Component 5: High Quality and Ongoing Professional Development**

### **1. Describe the professional learning that the staff will receive that is aligned with the comprehensive needs assessment process and the goals of the school improvement plan.**

Throughout the year professional development opportunities and activities will be provided in several areas to align with WSC Academy's comprehensive needs assessment. These will include:

1) Blended Learning Model - This framework will serve as a basis for identifying effective planning for instruction within in the following a direct instruction component by highly qualified content area teachers combined with the online PLATO learning modules. Quality lesson design will ensure that students are receiving the level of support they need in all areas of the curriculum to assist teachers in using best practices

2) Best Practices - PD involving best practices will equip teachers with the knowledge to implement differentiation strategies such as individual conferencing, re-teaching concepts, guided instruction and reading, extensive lessons using the blended learning model, independent activities, small groups, learning stations, layered curriculum, as well as delivering the district curriculum with fidelity.

3) Professional Learning Communities - Professional learning will focus on the needs of the individual staff members as well as whole building needs by selecting strategic professional development to address achievement gaps and support student learning and a structured system for reviewing data and addressing the needs of students in a timely manner.

4) Parent/Family Engagement - Teachers and staff will learn ways to increase parent communication between home and school. This will be done at staff and PLC meetings when perception data and advice from parent surveys as well as the PAC are shared. Staff will focus on engaging parents to support student learning by creating a strong school and family working relationship through effective communication methods and offering meetings at varied times to accommodate more parents and families. Several opportunities throughout the year will be provided for families to be involved in our school program. Parents will have the opportunities to learn strategies throughout the year at parent workshops which will help connect family and school.

7) MTSS - Teachers will receive professional development on the MTSS model of support for students. This will take place during PLC's and Staff Meetings throughout the school year. This will be important to ensure that students are receiving the level of support they need to meet academic standards.

### **2. Describe how this professional learning is "sustained and ongoing."**

WSC Academy has made a commitment to include time for Professional Learning Communities that will include using the subject area PLCs to analyze assessment data, align curriculum to standards, and furthermore, learn how engage more parents. The schedule includes time on every Friday to provide sustained and ongoing Professional Development. There is also a commitment in using Multi-Tiered System of  
SY 2018-2019

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

Supports for academic and behavior concerns. SIP/Staff meetings will be used as needed to review data, learn about best practices and more ways to incorporate technology into the classroom. Core professional development will also be embedded within the instructional day through the use of on line professional development opportunities for PLATO and Read 180. The school improvement team will also continue to meet to review perception, process, demographic and achievement data.

Label	Assurance	Response	Comment	Attachment
	3. The school's Professional Learning Plan is complete.	Yes		

## **Component 6: Strategies to Increase Parental Involvement**

### **1. Describe how parents are (will be) involved in the design of the schoolwide plan.**

Parents were surveyed to obtain input into the Comprehensive Needs Assessment, and they are continually invited to add their input into the overall growth of the school. Parents are invited to attend board meetings, and they are also invited to attend parent-teacher conferences. Parents are encouraged to become active members of our School Improvement Team. Twice a year parents are to School Improvement Parent Nights, during which they will be updated on the status of our Plan (goals, objectives, strategies and activities), and invited to offer input on programs needed for students and their families through the school.

The school sends monthly newsletters regarding Parent Meetings, and will send letters home to specifically inform parents of upcoming meetings regarding the Schoolwide Plan. The school posts information regarding Parent Meetings on social media and the school website. We will add a link to the Schoolwide Plan from the school website. We will urge students to invite their parents to meetings, and offer incentives for parents to attend. The school uses the Bright Arrow messaging system to notify parents of upcoming meetings. We provide test results for the student and

parent to share following standardized testing, including NWEA and Title I tests (Read 180 ); we also have individual parent/teacher meetings to refine individual plans for student success. With each contact home we will inform parents that their input is important as we reach for and refine our goals.

As we began to use the Program Evaluation tool, parents were invited to be part of this process. Their input will be sought via annual parent surveys, and the evaluation will be shared at an annual Title I Parent Meeting.

### **2. Describe how parents are (will be) involved in the implementation of the schoolwide plan.**

The school will convene a Title I Parent Meeting within the first 2 weeks of school from 5:00 pm to 6:30 pm, explaining our curriculum -- PLATO, Project Based Learning, and additional support services like Read 180 and Math-U-See -- and how students may qualify for additional support. To accommodate the needs of all parents we will also convene a Parent Meeting within the first 2 weeks of school, if necessary several times will be offered to meet the needs of our families, explaining our curriculum -- PLATO, Project Based Learning, and additional support services like Read 180 and Math-U-See -- and how students may qualify for additional support. The school will encourage parent support through regular Parent Meetings where

our curriculum options are further explained and demonstrated, and where we discuss how each parent can best help ensure their child's success through regular attendance, consistent study times, and adequate nutrition. To encourage parental involvement WSC will also use surveys, phone calls home, and progress letters with room for parent signatures and suggestions. Twice a year parents will be invited to School Improvement Parent Nights, during which they will offer input on programs needed for students and their families through the school. Parents of students receiving support services may arrange for conferences with the Title I teacher or administrators to discuss their children's education, or to offer suggestions on how to improve the program.

Parent Workshops are being offered 4 times during the school year, in the evenings, during which time parents are being provided with information about how to support their child's learning at home. Other topics include why parent involvement is important, preparing your child for college, and using the school's technology resources to help parents find information pertinent to their individual needs and interests

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

### 3. Describe how parents are (will be) involved in the evaluation of the schoolwide plan.

The school will encourage parent input on shaping the Schoolwide program through regular Parent Meetings, phone calls home, and progress letters with room for parent signatures and suggestions. Twice a year parents will be invited to School Improvement Parent Nights during which they will offer input on programs needed for students and their families through the school. The school newsletter will be sent home to notify parents of the meeting times as well as having the meeting times posted on the website. Notes from meetings will be made public through the school website to inform parents of the content discussed at these meetings. Parents will have the opportunity to review overall student achievement data via the school website as well as the Annual Education Report posted on the State of Michigan website. Parents of participating students may arrange for conferences with the teachers or administrators to discuss their children's education, or to offer suggestions on how to improve the program. The school will survey all parents annually to seek out feedback and make adjustments to the plan as needed. The schoolwide improvement plan will be included in our school newsletter and posted on the school website. If the schoolwide improvement plan is not satisfactory to any parent, we will submit any parent comments on the plan to (our district) when the school makes the plan available.

As we begin to formally evaluate our plan through the Program Evaluation process, parent input will be sought via surveys, Parent Nights /Meetings, and other opportunities to provide feedback.

Label	Assurance	Response	Comment	Attachment
	4. Does the school have a Title I Parent Involvement policy that addresses how the school carries out the required activities of ESEA Section 1118 (c) through (f)?	Yes		WSC Family Engagement Plan19-20

### 5. Describe how the school is carrying out the activities outlined in ESEA Section 1118 (e) 1-5, 14 and (f).

1116(e)(1) Shall provide assistance to parents of children served by the school or local educational agency, as appropriate, in understanding such topics as the State's academic content standards, State student academic achievement standards, State and local academic assessments, and how to monitor their child's progress and work with educators to improve the achievement of their child.

WSC Academy High School will provide a teacher-written explanation of the Michigan Common Core Standards based on the Michigan Department of Education's "Crosswalk to the Michigan Grade Level and High School Content Expectations." Material will be phrased in parent-friendly language in writing, and orally at the fall Curriculum Night. Teachers will also be available for assistance with interpreting and explaining the state standards in individual conferences or in parent/teacher conferences. Teachers will demonstrate how to interpret their child's data in order to monitor their progress through progress reports, report cards, and online through PLATO.

1116 (e) (2) Shall provide materials and training to help parents work with their children at home to improve their children's achievement.

WSC Academy High School will provide Internet Café nights where parents can meet for coffee and have Internet access to investigate and monitor their child's curriculum and academic progress. We also offer parent nights and curriculum nights where parents will be provided with recommended reading lists for students, a list of tutorial programs and websites to aid students and parents with understanding our curriculum and student requirements under the state Common Core Standards, and how best to work with their children at home in order to improve their children's achievement.

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

1116 (e) (3) Shall, with the assistance of parents, educate teachers, pupil services personnel, principals, and other staff in the value and the utility of parents' contributions. Educators should also receive guidance in ways to reach out to parents; to communicate with them, to work with them as equal partners, to implement and coordinate parent programs, and to build ties between parents and the school.

WSC Academy High School will educate staff to build effective parent involvement, and to value the parents' contributions. Professional development time is regularly devoted to better developing effective parent communications, and to appreciate parents as strong partners. To further develop our professional learning, we will make use of Joyce Epstein's "School, Family, and Community Partnerships: Your Handbook for Action," and Anne Henderson's "Beyond the Bake Sale: The Essential Guide to Family/School Partnerships."

1116 (e) (4) Shall coordinate and integrate parent involvement programs and activities with other programs that encourage and support parents in more fully participating in the education of their children.

WSC Academy High School will freely use and share the Washtenaw County Parent Resource Directory to more fully collaborate with the community to ensure student success. The position of Dean of Education is being redrawn to incorporate presentations and listening sessions with local elementary and middle schools, and with community agencies. Parents will be invited to Parent Visitation Days so they can observe the operation of the school, and parents will be invited on college campus visits to raise expectations for both students and their families or guardians.

1116 (e) (5) Shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format, to the extent practicable, in a language the parents can understand.

WSC Academy High School will write and present information to parents in parent-friendly language. All informational flyers and notifications on social media will be written with this goal in mind. Staff will explain all acronyms, and have ready interpretations for parents. If language or translation services are necessary, we will utilize the resources of the ISD for assistance.

1116 (e) (14) Shall provide other reasonable support for parental involvement activities as parents may request.

WSC Academy High School will provide reasonable support for parental involvement activities as parents may request, including, but not limited to, alternative homework and assignments, flexible meeting times for parents whose schedules require them, and transportation assistance for parents with limited mobility.

1116 (f) Shall provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports in a format and language parents can understand

WSC Academy High School buildings are fully ADA compliant for physical disabilities. WSC Academy will call on the ISD as needed to provide services for parents with hearing, visual or other impairments. If we enroll migratory children as students, we will provide textbooks and resources as needed to provide continuity of education for those students. We will fully provide access opportunities for parents of limited English proficiency to participate fully in all parent activities and school activities in a format and language each can understand.

## 6. Describe how the parent involvement component of the schoolwide plan is (will be) evaluated.

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

We will survey all parents at the end of the year to determine how we could better accommodate parent needs and schedules in order to boost parent involvement. We will use attendance records from parent nights and all other school events. We will also use informal feedback, including Power School log entries involving parent contacts, and parental suggestions collected inside and outside of school

### 7. Describe how the results of the evaluation are (will be) used to improve the schoolwide program.

We will survey our parents at the beginning and end of the school year to assess parental satisfaction with the school, their students' progress, and our curriculum. Parent feedback gathered from phone contacts, Power School log entries, and personal contacts will also be added. Based on the survey results we will adjust our approach to curriculum, instructional methods, and access to support services like Read 180. The results of parent input will be used when we revise our school improvement plan in the Spring of the year.

### 8. Describe how the school-parent compact is developed.

Originally we considered the school population and the needs of the students. We used focus group interviews with parents to determine the necessary components of the School-Parent Compact. Our Compact was developed by the staff, parents and students, and then shared with parents when they signed up their students for the school year. On an annual basis we survey parents at the end of the year to assess the effectiveness of the School-Parent Compact, and to determine any necessary adaptations for the future so that we can maintain a collaborative community atmosphere. The compact is revised based upon this collaborative review.

### 9. Describe how the School-Parent Compact is used at elementary-level parent teacher conferences.

NA

### 10. How is the School-Parent Compact shared with middle school or high school parents (depending on the grade span of the school)?

The School-Parent Compact is shared with every parent when enrolling their students in school, or at the beginning of each year, in order to guarantee that every parent and student has read and understood it. Parents, students, and teachers are invited to sign the Compact to demonstrate their commitment to fulfilling their parts of the Compact. The Compact will be housed with the student's home Advisory teacher so that it can be reviewed or referred to at each parent/teacher conference. The School-Parent Compact will be reviewed once a year to determine if the language or aims of the compact need to be redone.

Label	Assurance	Response	Comment	Attachment
	The School's School-Parent Compact is attached.	Yes		WSC Academy19-20 Compact

### **11. Describe how the school provides individual student academic assessment results in a language the parents can understand.**

Individual student academic assessment results from standardized tests such as M-Step, NWEA, and Read 180 PSAT/SAT will be shared with parents in a personal conference. Parents will be provided copies of the individual results, and the test procedures and results will be explained by the student's teacher. If a parent requires translation services, the school will provide it through our community contacts. Academic assessment results will be shared at regular conferences, such as quarterly progress report parent nights, or as needed on a one-to-one basis when the need is expressed during regular teacher/parent communication. WSC Academy posts online that we offer individual conferences with parents for any reason, including assessment results or progress .

WSC Academy intentionally uses "parent friendly" language for all communications including student academic assessment results. We ensure that parents have the opportunity to meet with staff if they need additional assistance.

## **Component 7: Preschool Transition Strategies**

### **1. In what ways does the school connect with preschool age children more than a once a year visitation to the kindergarten classroom?**

As a secondary school, we do not have preschool transitions. We do however work to transition 9th graders and new students so that they can be effective learners.

--New students are given an individual tour of the building and are introduced to all staff members.

--Students are put in an age appropriate advisory to help address age and grade related concerns.

--New students are paired with a current student to teach the method for courseware, log in and navigation.

Students begin the transition towards the work world by learning to fill out job applications, developing a resume and practicing interviewing skills. All students complete interest surveys to engage them in planning for their future. In addition there is an annual college fair and numerous college tour field trips that are used to aid in determining the students' next step after high school.

### **2. What types of training does the school provide preschool parents and/or preschool teachers on the skills preschool age children will need when they enter kindergarten?**

Information is shared with parents new to the district and the parents receive a personal tour and 1-1 session on what they can expect from WSC Academy. Academic and Behavior Expectations are discussed and parents are given resources for any support they may need.

## **Component 8: Teacher Participation in Making Assessment Decisions**

### **1. How do teachers provide their input into the decisions regarding the use of school-based academic assessments?**

Teachers use summative and formative assessments from PLATO to identify student deficiencies for one-on-one and small group instructional interventions. Teachers use small group instruction as formative assessments to identify student deficiencies in order to determine where further one-on-one tutoring and pull outs are necessary for summative assessments.

For project-based learning activities, teachers have flexibility in determining how they will assess student progress. They may use rubrics, observations, multi-media student presentations, written papers and assignments, such as Venn Diagrams, student reflections on their own growth, presentations to professional organizations, such as the School Board

As a staff, we meet every Friday in a PLC to address the progress of students. This includes analyzing the results of our assessments. Teachers are actively involved in the process of selecting and designing local assessments.

### **2. How are teachers involved in student achievement data analysis for the purpose of improving the academic achievement of all students?**

WSC consists of a small staff who work collaboratively in order to identify the strengths and needs of all students. The staff conducts this analysis through weekly planning time. During weekly planning time, teachers and staff review the progress of individual students, along with their attendance and behavioral issues. This is done by discussing and analyzing formative and summative data that has been collected during instructional time throughout the week. Advisory teachers are responsible for reporting data to the principal on a weekly basis to indicate areas of improvement. This data is collected via PLATO reports indicating progress in assigned courses, formative assessments based on pull-out instruction in specific content areas, and teacher observation. In addition, NWEA data will provide gradelevel proficiency for individual students in reading, language, and math. The development of Individual Learning Plans will assist in providing a tool to help monitor student progress and to address individual needs.

Support services include differentiated instruction, based on the analysis of this data, resource support by a highly qualified teacher, and the opportunity for extended learning after school Monday-Thursday to receive additional help. Scientific research-based interventions such as Read 180 and Math U See are currently being utilized to improve reading and math skills. Read 180 students receive instruction on a daily basis during the school day. As NWEA reports become available, advisory teachers will meet to review and analyze this additional data. Specific academic areas of strength and needs will be identified as well as additional strategies to address these academic deficit

## **Component 9: Timely and Additional Assistance to Students Having Difficulty Mastering the Standards**

### **1. Describe the process to identify students who experience difficulty mastering the State's academic achievement assessment standards at an advanced or proficient level.**

The process to identify students needing additional assistance includes:

English Language Arts: A Scholastic Reading Inventory is administered quarterly to identify students who need interventions in the area of reading as well as to measure growth. Data points from READ 180 and MAP scores that indicate Beginning Reader, Below Basic, or Basic identify students who require additional assistance. In addition, weekly progress in course work is observed by teachers to detect deficiencies that impede student progress. Additional teacher assistance is offered on a one-on-one basis by a student/parent request, or based solely on teacher observation of student progress. WSC also has a consistent base of retired professionals who volunteer daily in assisting students who need additional academic support. Pull out sessions or small group instruction is also offered to students when a teacher may notice that there is a deficiency at that time.

Math: A Scholastic MAP/NWEA is administered three times a year to all students. MAP scores are analyzed by the school data team to identify students who require additional assistance. Those students who tested at low or low-average for their grade level are targeted for additional assistance and support. In addition, weekly progress in course work is observed by teachers to detect deficiencies that impede student progress. Additional teacher assistance is offered on a one-on-one basis by a student/parent request, or based solely on teacher observation of student progress. Students have access to additional support from the math paraprofessional via one-on-one or small group instruction as well as help from volunteers who are retired professionals. These students are recommended by the math instructor based on student need.

Science: Using PLATO, students will take mastery tests, which will alert teachers to students who may need additional support. READ 180 data and MAP scores are analyzed to identify students who require additional assistance based on the reading/math requirements of their enrolled course. Students testing below grade level are provided with interventions. Weekly progress in course work is observed by teachers to detect deficiencies that impede student progress. Additional teacher assistance is offered on a one-on-one basis by a student/parent request, or based solely on teacher observation of student progress.

Social Studies: As with Science, data from READ 180 and MAP scores are analyzed to identify students who require additional assistance. Students whose reading scores indicate that they are a Beginning Reader, Below Basic or Basic require additional assistance. Weekly progress in course work is observed by teachers to detect deficiencies that impede student progress. Additional teacher assistance is offered on a one-on-one basis by a student/parent request, or based solely on teacher observation of student progress.

### **2. How is timely, effective, additional assistance provided to students who are experiencing difficulty mastering the State's academic achievement assessment standards at an advanced or proficient level?**

Timely, effective, additional assistance provided to students includes:

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

---

### Reading:

Students are individually tutored throughout the day. Small group pull outs are used to target difficult concepts and to target skills that need further development. In addition to the administration of NWEA, a Scholastic Reading Inventory is administered quarterly to identify students who need interventions in the area of reading as well as to measure growth. The school data team compiles the results of NWEA along with the SRI data and classroom performance or student work samples to identify students performing below grade level proficiency. Based on these results, students are placed into the reading intervention of READ 180. When students achieve scores that indicate basic or proficient in READ 180 they are exited out of the program. This scientifically research- based intervention is taught by a highly qualified English Language instructor during the course of the regular school day for 60 minutes daily. In addition to the reading intervention, alternative and additional assignments are offered to help students master areas of difficulty. Volunteers, who are retired professionals, also work with individual students to provide academic support. The full data team meets at least three times a year to review student scores and adjust interventions accordingly. Data team meeting occur regularly throughout the school year to progress monitor and make any necessary adjustments to accommodate student learning needs.

### Math:

Students are individually tutored throughout the day. Small group pull outs are used to target difficult concepts and to target skills that need further development. NWEA is administered three times a year to identify students who need additional instruction in the area of math as well as to measure growth. The data team meets to review these results along with classroom performance and work samples. Based on the results of this assessment and review of student work, students are recommended for additional support by the math paraprofessional or volunteer tutors. Daily instruction is delivered by a highly qualified math teacher. The entire data team meets at least three times a year to analyze all performance data. Smaller data teams meet throughout the school year to progress monitor student growth and make necessary adjustments for student learning needs.

### Science:

Students receive individual instruction as they proceed through their PLATO tutorials. Small group pull outs are used to deliver additional instruction on difficult concepts and to target skills that need further development. This instruction is delivered by a highly qualified science teacher. A concept check is completed one-on-one with the teacher at the conclusion of the instruction to ensure that students have comprehended the material. Alternative and additional assignments are also offered to help students master areas of difficulty. The science teacher also offers an after school science club for students wanting to participate in more hands-on activities related to science and increase their understanding of this subject.

### Social Studies:

Students are individually tutored throughout the day. Small group pull outs are used to target difficult concepts and to target skills that need further development. Alternative and additional assignments are offered to help students master areas of difficulty. Social studies instruction is delivered by a highly qualified certified teacher.

### **3. How are students' individual needs being addressed through differentiated instruction in the classroom?**

Teachers differentiate instruction in the classroom by offering alternative assignments on an individual and small group basis. In English and reading, students are provided with an opportunity to participate in alternative reading assignments with comprehension and analysis questions, an essay option, or a visual representation option. In math, students are given the opportunity to participate in alternative

assignments that build their problem-solving skill set, such as students being given the answer to figure out the process of solving a problem with individual teacher support. In science, students are given the opportunity to participate in alternative assignments to enhance their reasoning skills by understanding a process approach (scientific method) which undergirds all scientific knowledge gathering in a progressively challenging way. In social studies, students are given the opportunity to participate in alternative assignments to further develop their knowledge base of significant historical periods in terms of social and economic realities. Students are given visual options of learning through documentary viewing and visual/writing options of showing mastery, such as visual representation of significant events, or writing an essay. Furthermore, cross-curricular instruction is provided through group and individual projects (project-based learning). A blended learning model of online instruction with direct teacher instruction is offered to all students. This allows students to work at their own pace while providing assignments that target specific needs.

## **Component 10: Coordination and Integration of Federal, State and Local Programs and Resources**

**1. In what ways are the programs coordinated and integrated toward the achievement of the schoolwide goals? Include a LIST of the State, local and Federal programs/resources that will be supporting the schoolwide program.**

WSC Academy receives funding from numerous different sources to provide programs for students in our community to achieve our schoolwide goals. The school receives Federal funds in the form of Title I and Title II funds. The school also receives state aid in the form of FTEs based on the student count completed in October and February, Section 31a funds provided for at risk students, an Idea Grant for use with the special education population, and an Implementation grant used for start up of new charter schools in the State of Michigan. WSC Academy also received a grant from Lake Superior State University for professional timeliness that was to be used at the school's discretion.

### Federal Funds

Title I - Purchased the Read 180 Program with a site license for 60 students to increase reading scores of our lower performing readers. Title I funds were also used for technology, hardware, and software including iPads, calculators, SMART Boards, and laptops. These funds are also being used to provide campus visits for students to a number of institutions in the State of Michigan. A remedial math program, Math-U-See, was also purchased for help with our lower performing math students. Bus Tokens are also purchased with Title I funds in order to provide transportation to and from after school activities. Parent Nights and involvement activities are also funded with Title I funds. Finally, Title I funds are used to pay the salary and benefits of the Reading Teacher hired by WSC Academy.

Title II - Purchased professional development services for the WSC Academy Staff in accordance with the School Improvement Goals.

### State Funds

IDEA Grant - The Idea Grant provided by the State of Michigan was used pay for the salary and benefits of our special education teacher.

Title IV-funds used to further implement Title I jprogram

### State Funds:

General Fund - The general fund of WSC Academy is used to pay for the salaries and benefits of the administrative and teaching staff as well as secretarial and custodial services. Teaching supplies, advertising, legal services, teacher recruiting and consulting fees also come out of the general fund. Capital outlay and building maintenance such as leasing and utilities also are covered by the general fund.

Section 31a - Section 31a funds were used the teacher salaries required to support the intervention program program. These funds were also used to purchase license for Read 180, Literacy Intervention program as well as to support the salary of the Read 180 teacher. Plans are underway to have a summer school program that would be funded through Section 31a also.

### Local Funds:

LSSU Grant - This grant was used to purchase bus tokens for students to get to and from school

### **2. Describe how the school will use the resources from Title I and other State, local and Federal sources to implement the ten required schoolwide components.**

1. Comprehensive Needs Assessment - Our Comprehensive Needs Assessment, conducted by our School Improvement Team, is covered by our General Fund. Data collection and analysis, the development of goals, selection of strategies and activities, and planning for professional development are included in this process. The data collected and analyzed included: student achievement data, the completion of our SSR for program/process data, administering surveys to staff, students and parents, and examining pertinent demographic data.

2. Schoolwide Reform Strategies - Our Schoolwide Reform Strategies are funded in a number of ways. Read 180, a program designed to assist remedial readers, is funded through Title I. Our remedial math support, , is funded through Section 31a funds. Additional math support, The afterschool math tutoring program that uses Math 180 is funded through the use of Section 31a funds to pay the teacher's .2 FTE salary. Summer School, using our PLATO instructional program, will be funded through Section 31a. All other strategies that are used with all students - PLATO and project-based learning - are paid throughout General Fund.

3. Highly Qualified Staff - Highly qualified staff, including teachers, administrators and counselors, are funded primarily through the General Fund. The staff is recruited through the General Fund as well. The General Fund is used to pay for the salaries and benefits of administrators, teachers, counselors, custodians and the secretary. One position, the Dean of Education / Reading Specialist, is funded through two sources - Title I funds for .8 FTE and Section 31a for .2 FTE. Section 31a funds are used to pay the .2 FTE salary of the afterschool math tutor.

4. Attract and Retain Highly Qualified Staff - Attracting and retaining highly qualified staff is done through the General Fund. Recruiting staff is done through posting openings on sites for educators, which may incur some minimal costs. Recruiting is also done by HR staff at teacher recruitment fairs at colleges throughout the state. The General Fund, along with some Title I and Section 3a funds, allows us to retain the highly qualified staff we currently have.

5. Professional Development - PD is funded from the General Fund as well as through the use of Title II funds. Various PD opportunities are being researched to align with our school improvement goals.

6. Parental Involvement - Parent involvement is funded through Title I funding. WSC Academy uses the Title I funding to host between 4 and 6 Parent Nights and Workshops each school year. At these events we provide food and incentives for parents in attendance, also funded through Title I.

7. Preschool Transition - Since WSC Academy is a Grade 9-12 high school we do not have preschool transitions. However, through the use of the General Fund we provide a guidance counselor for students to support post-secondary transitions. Each graduating student works out a transition plan, highlighting exit plans and goals for post-secondary education. Title I funds are used during the school year for college field trips to help students make informed decisions about their post-secondary plans.

8. Assessment Decisions - Assessment decisions are primarily funded through the General Fund. WSC Academy uses NWEA / MAP testing to assess student progress three times throughout the year. Title I funds are used for Read 180, which includes student lexile (reading level) testing.

9. Timely and Additional Assistance - Funding for this component comes from many different sources at WSC Academy. Title I funds are used to provide the Read 180 program for remedial readers in the school. Title I funds are also used to provide the remedial reading teacher who works with the students in this program. Technology is also purchased through Title I funds to allow students the freedom and flexibility to work in different settings. Section 31a funds are used to provide remedial math support for the Math 180 program, as well as the .2 FTE teacher that provides instructional support. Section 31a funds are also used to pay for Summer School costs to assist our struggling or remedial students. The General Fund is also used to pay for any basic materials and support items, such as textbooks, for students who need additional assistance.

10. Coordination and Integration of Federal, State and Local Programs and Resources - The General Fund is used for the salaries of the School Improvement Team responsible for the coordination of Federal, State and local resources.

**3. How does the school coordinate and integrate the following Federal, State and local programs and services in a manner applicable to the grade level to support achievement of the schoolwide goals: violence prevention programs, nutrition programs, housing programs, Head Start, adult education, vocational and technical education, and job training.**

WSC Academy uses General Funds to provide job training for students enrolled at the Academy. All students, through Advisory, are exposed to required job skills for post-secondary transitions. General Funds are also used to provide resources for technical education. WSC has a strong partnership with Work Skills Corporation and coordinates vocational and technical education opportunities and job training for students who may qualify. They also provide support for students as they learn job interviewing skills.

We currently t have a breakfast or lunch program, have implemented PBIS to address violence prevention programs, and have a program for high school completion for adult students

## Evaluation:

### 1. Describe how the school evaluates, at least annually, the implementation of the schoolwide program.

On an annual basis, the School Improvement Team, consisting of teachers, administrator/s, support staff and parent representative/s (or via surveys) will meet to review accumulated data acquired throughout the year. The data will be compared to the plan to determine if the outcomes are meeting the goals outlined in our plan. In addition to academic data, the areas of perception data, demographic data and program/process data will updated annually. Assessments to be reviewed include NWEA, Read 180 Scholastic, PSAT, SAT, M-Step scores. If scores are demonstrating growth, we will continue progressing with the programs currently in place, as well as building on these programs. If scores are not demonstrating growth, the team will review programs currently in place to determine what is working and what is not working. The team will research other scientifically research-based programs to consider which programs may be a better fit to meet the needs of our students.

We will be looking at data and comparing and contrasting the progress of the staff and their ability to align their goals with the goals of the Title I Schoolwide plan. Teachers will be surveyed and give self appraisals as to their opinions on what worked and what did not. Parents will also be surveyed as to the ability of the school to meet the needs of the students and support them appropriately. Parents will also be encouraged to offer their ideas on how to meet the needs of the students and the community.

Students will be assessed 3 times per year (fall, winter, and spring) using NWEA in the areas of reading, language, and math. At the completion of each assessment period, we will conduct a staffing to review the data and determine if students are showing progress. If students are demonstrating progress, they will continue in the assigned intervention. If students are not demonstrating progress, staff will discuss potential reasons for this such as if the current intervention is an appropriate match for a specific student, attendance, personal effort. Progress-monitoring data will also be reviewed to determine if students are meeting benchmarks for an assigned intervention as they proceed. Parents will be notified of the intervention recommendations as well as student progress.

The reading intervention of Read 180 is currently carried out with strong fidelity meeting for at least 90 minutes daily and is lead by a highly qualified English/Language teacher. The schedule will be tailored in the upcoming school year to deliver this same fidelity in the Math 180 intervention. Currently, this program is offered on Fridays only from 12-3 and is lead by a highly qualified instructor. Students participate in project-based learning activities daily from 1:10 p.m.-3:10 p.m. where instruction is also delivered by highly qualified teachers in the areas of math, science, social studies, and English/language arts. These activities are monitored via all-staff meetings each Friday where teachers are required to provide weekly updates on individual student progress in Plato, interventions, and project-based learning activities along with course completion rates. This also allows a weekly opportunity for staff to converse with the administration regarding what is working and what is not working as related to instruction, interventions, and overall composition of the school curriculum and climate. Additionally, the results of the Program Evaluation (using the MDE Evaluation Tool) will be used to help the school evaluate the implementation of the school wide program.

### 2. Describe how the school evaluates the results achieved by the schoolwide program using data from the State's annual assessments and other indicators of academic achievement.

The staff members of WSC-Ypsilanti will review the data compiled from NWEA, PSAT, SAT M Step, Read 180, course completion, course grades, and attendance to determine if growth is being achieved by students. Academic content areas to be reviewed include reading.

language, math, science, and social studies. In addition, overall PLATO course completion and grades will be reviewed as well as how student achievement scores and course completion are impacted by student attendance. This data will be broken down to see where gains or losses are being made by students, compare intervention strategies and instructional strategies that are working or not working. Students who participate in interventions regularly are considered to be closing the gap in the area of reading if they raise their lexile reading scores by one hundred lexile points over the course of one year. The review will entail comparing overall student achievement data from the fall, winter, and spring to ensure that achievement gaps are closing. Students will be considered successful in closing the achievement gap if they are showing growth of more than one grade level when initially scoring below grade level on school-wide universal screenings. Students are expected to demonstrate growth of at least one grade level if at or above grade level as measured by school-wide universal screenings such as NWEA and the Scholastic Reading Inventory. In addition, the data team will review the credits students are earning via their coursework to ensure that students are achieving adequate credits to be on track for graduation. Previous reviews have indicated that students need to achieve 4.5 credits each school year to be considered on track for a high school diploma within the four-year timeline. Annual graduation rates will be calculated to determine how this is impacted by accumulated data and instructional strategies during the school year.

### **3. Describe how the school determines whether the schoolwide program has been effective in increasing the achievement of students who are furthest from achieving the standards.**

Students will be assessed 3 times per year (fall, winter, and spring) using NWEA in the areas of reading, language, and math. At the completion of each assessment period, we will conduct a staffing to review the data and determine if students are showing progress. If students are demonstrating progress, they will continue in the assigned intervention. If students are not demonstrating progress, staff will discuss potential reasons for this such as if the current intervention is an appropriate match for a specific student, attendance, personal effort. Progress-monitoring data will also be reviewed to determine if students are meeting benchmarks for an assigned intervention as they proceed. For students who are behind in achieving adequate credits within the four-year timeline for graduation, a summer school program for credit recovery will be offered for four weeks. Success will be measured by course completion, course grades, and attendance. The SI Team will review the results of all of our data to see if we have been successful in reaching our objectives and if we are closing the gaps for our identified sub groups.

### **4. What process is followed by the school to revise the plan, as necessary, based on the evaluation, to ensure continuous improvement of students in the schoolwide program?**

WSC Academy will conduct School Improvement Team meetings monthly. Parents will be invited to attend these meetings. During these meetings components of the plan will be discussed to ensure that WSC is staying focused on our goals and showing progress towards meeting these goals. Effective and ineffective strategies will be evaluated based on data collected from assessments as well as staff and parent feedback. New strategies and programs will be reviewed as we determine the needs of the students and the school, based on the data and feedback provided. Academic strategies will be researched via recommendations and studies identified through reputable sources such as professional referrals from schools showing growth, What Works Clearinghouse, RTI4success, and ERIC. The review process will be ongoing as we seek to improve the skills of students who are performing below grade level in order for them to acquire the knowledge needed to meet grade level standards and be academically successful.

All results of our evaluations including the Program Evaluation using the MDE Program Evaluation Tool, as well as the results of our CNA will be considered and used to revise our SI Plan in the Spring of the year and will help determine our program for the next school year.

**Single Building District Improvement Plan**

WSC Academy - Ypsilanti Campus

---

# **2019-2020 Goals and Plan June 6,2019**

## Overview

### Plan Name

2019-2020 Goals and Plan June 6,2019

### Plan Description

## Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	All Students at WSC Academy will improve English Language Arts Proficiency	Objectives: 1 Strategies: 5 Activities: 29	Academic	\$317300
2	WSC Academy will increase student exposure to careers and college post-secondary opportunities through field trips, work study, and career workshops	Objectives: 1 Strategies: 1 Activities: 5	Academic	\$103500
3	All Students at WSC Academy will improve Science proficiency	Objectives: 1 Strategies: 4 Activities: 12	Academic	\$76800
4	All Students at WSC Academy will improve Social Studies Proficiency	Objectives: 1 Strategies: 4 Activities: 12	Academic	\$67300
5	All students at WSC Academy will improve Math proficiency	Objectives: 1 Strategies: 4 Activities: 12	Academic	\$66950
6	Higher Performing Student Achievement	Objectives: 1 Strategies: 1 Activities: 3	Academic	\$2650
7	All students in the subgroups of special education, English language learners, and homeless will be provided with services appropriate to their individual needs so their overall achievement will increase in all content areas	Objectives: 2 Strategies: 1 Activities: 5	Organizational	\$15000

## Goal 1: All Students at WSC Academy will improve English Language Arts Proficiency

### Measurable Objective 1:

100% of Ninth, Tenth, Eleventh and Twelfth grade Black or African-American, Asian, White, Children in a Military Family, Children in Foster Care, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Homeless, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate student proficiency (pass rate) in writing in English Language Arts by 06/30/2021 as measured by state assessments and local assessments.

### Strategy 1:

Use of Technology - •Primary delivery system - PLATO

- All content areas
- Includes classes each student is registered for
- Opens with syllabus and course overview, introduction to software
- Includes audio, visual, video, interactive activities
- Keeps and tracks student progress in all assigned classes
- Technology-based program that allows students to work at their own pace in all content areas at any time
- Begins with formative pre-test to determine course skills that are mastered or need mastering
- Required mastery level – 70% to move on to next course level
- Course modules start with tutorial that proceeds to an application and ends with a mastery quiz
- Instruction in a variety of ways to address all learning styles
- Summative unit tests and end of semester tests for mastery of course objectives
- Teacher available to offer direct instruction and assistance individually and as a small group

Activity - Direct Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
In addition to assigned PLATO courses, instruction is delivered by the highly qualified content area teacher in a classroom setting	Direct Instruction	Tier 1	Implement	07/01/2017	06/11/2021	\$1500	General Fund	Classroom Teachers and Title I Staff

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Activity - Read 180 Program	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All students are evaluated for reading comprehension through the Read 180 program. Results identify students who require additional assistance using the Read 180 instructional program at a Tier II level.	Academic Support Program	Tier 1	Evaluate	07/01/2015	07/10/2020	\$6000	Title I Part A, General Fund	Teachers
Activity - Monitoring/Data Analysis	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
PLATO progress reports, as well as NWEA data, are used to analyze student progress and academic areas of need in order to provide instructional assistance.	Curriculum Development	Tier 1	Monitor	09/02/2014	06/11/2021	\$1500	General Fund	Teachers

### Strategy 2:

Differentiated Instruction - Students are given direct instruction and/or alternative assignments based on their need and interest.

Category:

Research Cited: Resource from Eileen

Tier: Tier 1

Activity - Read 180 Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Identified students will receive the Read 180 direct instruction program provided by the Title I teacher. This program strengthens students' reading comprehension abilities. Site License will be renewed with Title I funds.	Direct Instruction	Tier 2	Implement	09/02/2014	06/25/2021	\$61500	Title I Part A, Title I Part A	Title I teacher
Activity - Resource Teacher Support	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Resource teacher provides co-teaching support in the general education classroom and small group or individualized resource room support to meet the needs of individual IEP students.	Academic Support Program	Tier 3	Implement	07/01/2017	06/18/2021	\$5000	General Fund	Special Education teacher
Activity - Extended Time	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Through the PLATO program, students are able to work at their own pace in all courses. Students are not penalized for needing extended time to complete course work as long as progress is demonstrated.	Academic Support Program	Tier 1	Implement	09/02/2014	06/25/2021	\$6500	Section 31a	Teachers

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Activity - Teacher Training	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will receive training on differentiated instruction and blended learning models in order to offer students choices in their learning activities.	Professional Learning	Tier 1	Implement	07/01/2017	06/25/2021	\$4500	Title II Part A	Administration and teachers
Activity - Content Interventionist	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
The Title I Content Interventionist is a highly qualified teacher who will provide additional instructional support for the lowest 15% of identified students. The CI will focus on helping students increase achievement and motivate them by showing the real world connections to the work they are doing.	Behavioral Support Program, Academic Support Program, Extra Curricular	Tier 3	Implement	09/02/2019	08/28/2020	\$65000	Title I Part A	Intervention Content Teacher (Science)
Activity - Professional Learning Best Practices	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All staff will participate in 5 half day trainings regarding the use of data to select best practices and strategies to increase student achievement. An MDE facilitator will lead them in understanding the Title I Schoolwide components and how to use data to improve instruction and achievement and how to develop a professional learning community	Professional Learning	Tier 3	Implement	07/13/2015	06/26/2020	\$5000	Title II Part A	Principal and MDE approved Schoolwide Facilitator
Activity - Reading/Writing in Content Area	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will receive direct instruction support by HQ content teachers in the areas of Science and Social Studies to use informational text to address identified needs in Science and Social Studies. Activities and resources will be selected by the Teaching team to best address the students needs as identified in the individualized learning plan	Direct Instruction	Tier 2	Implement	07/13/2015	06/25/2021	\$4000	Title I Schoolwide, Title I Schoolwide, Section 31a	Principal, Deans, Teaching Staff, Counselor, Paraprofessional
Activity - Writing/Research Paper	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All students will receive direct instruction on the elements of writing traits when composing a research paper by the ELA teacher.	Direct Instruction	Tier 2	Implement	07/01/2017	06/25/2021	\$3000	Title I Part A	ELA Staff, Principal, Deans

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Activity - At Risk Counselor	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
A half time counselor will be employed to serve as an At Risk Counselor for identified students to assist in group sessions, transition activities for students, assist with intervention services for identified students to ensure improved academic success, serve identified sub groups such as Special Education to develop programs and provide a comprehensive counseling program to support Special Education students including transition activities.	Behavioral Support Program, Academic Support Program, Career Preparation /Orientation	Tier 2	Implement	07/10/2017	06/30/2020	\$35000	Title I Part A	Principal, At Risk Counselor

Activity - MTSS Intervention	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All teachers will implement MTSS by developing Individual Learning Plans for all students that will include specific interventions as determined by the monthly PLC data analysis meetings to increase student achievement and course completion. a designated 45 min per content area intervention/enrichment period will be implemented by all teachers and program will be monitored and discuss as part of bi=weekly PLC meetings.	Academic Support Program	Tier 2	Implement	09/07/2018	06/10/2021	\$12000	Section 31a, Title I Schoolwide	Principal, Counselor, Classroom teacher, paraprofessionals

### Strategy 3:

Extended Learning Opportunities - Students will be given the opportunity to participate in extended learning opportunities via a Book Club, Project Based Learning, alternate assignments for all courses, and summer school.

Category:

Research Cited: Add resource from John McCarthy's website

Tier: Tier 1

Activity - Book Club	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students have the opportunity to participate in a book club where they, as a group, analyze, and discuss a particular novel. This activity is above and beyond what is required of the PLATO courses.	Academic Support Program	Tier 2	Implement	07/01/2017	06/26/2020	\$2000	General Fund, Title I Part A	Teachers

Activity - Alternate Assignments	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will develop alternate assignments to the regular PLATO curriculum for students based on student interest and ability.	Curriculum Development	Tier 1	Implement	09/02/2014	06/26/2020	\$2500	General Fund	Teachers

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Activity - Summer School	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Highly qualified teachers (3) and a highly qualified Paraprofessional who will work under the supervision of the HQ Teachers will provide direct instruction and academic support for the students identified as at risk of not meeting standards in all 4 content areas. This additional time and small group setting will enhance the learning environment for students and will also help students with credit recovery. Summer school will be available to all students in order to make up credits toward graduation as well as strengthen understanding of core instruction and to allow differentiated assignments for students. Supplemental teaching supplies for projects, leveled reading material and additional copy paper will be needed. 40 students for 4 weeks, 5 teachers/staff 7 hrs per day	Direct Instruction	Tier 3	Implement	07/10/2017	06/25/2021	\$36000	Title I Part A, Section 31a	Teachers and administrators
Activity - Parent Engagement	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Parents will be invited to various Academic Parent Activities, where staff will share strategies and focus student work in all 4 content areas. Parents will be invited to Participate in the Title I annual meeting to review the plan, compact and Parent Involvement Plan and offer input. Parents will serve on the School Improvement team to support Title I initiatives	Parent Involvement	Tier 2		08/17/2015	06/18/2021	\$500	Title I Part A	Principal & Staff
Activity - Homeless Support	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Provide additional support in all content areas for identified homeless students. Provide resources through Education Project for Homeless Youth (EPHY) Provide transportation for identified homeless students to ensure full participation in school program	Academic Support Program	Tier 2		07/01/2017	06/28/2019	\$1000	Title I Part A	Principal
Activity - College Tours	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will participate in College Site visits to Washtenaw Community College, Eastern Michigan University, and University of Michigan to learn about opportunities and understand the connection to their daily work Will include transportation costs	Field Trip	Tier 2	Implement	07/01/2017	06/19/2020	\$1600	Title I Part A	Guidance counselor
Activity - Field Trips	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Students will attend field trips to Art museum, history museum, and a play production at Wayne State University. Transportation and Entrance fees. To provide Enrichment Activities and connect real life experiences for students. To help motivate students and improve engagement.	Field Trip	Tier 2		09/21/2015	06/19/2020	\$3200	Title I Part A	Principal, Dean, Teachers
---	------------	--------	--	------------	------------	--------	----------------	---------------------------

Activity - School to Work Transition	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will participate in a program to prepare students for the world of work. Through a summer program students will learn basic skills necessary to enter the world of work, including support in basic activities such as obtaining copies of birth certificates, social security numbers and state id's. ; gain an awareness of the availability of community resources and learn how to access the resources. Students will learn how to file an application, prepare for an interview, interview techniques and how to keep a job. This will be part of our summer school academic program. Funding for supplies and materials as well as transportation will be needed.	Direct Instruction, Academic Support Program, Career Preparation /Orientation	Tier 2	Implement	07/10/2017	05/28/2021	\$2000	Title I Part A	Building Leader, Principal, Guidance Counselor, Teachers

Activity - Parent Liaison	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
The district will employ a part time Parent Liaison to support parents, improve opportunities for families to be actively engaged in their student's educational program, to address needs of parents and serve to connect families to needed services. The Liaison will assist staff with parent/student activities. Liaison will actively work to engage more families in our activities.	Community Engagement, Recruitment and Retention, Parent Involvement	Tier 2	Implement	07/10/2017	06/19/2020	\$30000	Title I Part A	Principal, Parent Liaison

### Strategy 4:

Project Based Learning - Students participate in inquiry based projects that explore academic subject areas. Projects involve research, collaboration, and hands on learning. This program is open to all students.

Category: English/Language Arts

Research Cited: Need Resource

Tier: Tier 1

Activity - Projects	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
---------------------	---------------	------	-------	------------	----------	-------------------	-------------------	-------------------

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Projects students complete in English for Project Based Learning include: Character social media posters Research and write persuasive debates in MLA format Significant author research and paper/poster Creative short story Poetry portfolio	Other, Career Preparation /Orientation	Tier 1	Implement	07/01/2017	06/19/2020	\$5000	General Fund	Teachers
Activity - PBL Training	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will continue to implement projects with guidance from professional development activities and trainings.	Professional Learning	Tier 1	Monitor	07/01/2017	06/28/2019	\$5500	Title II Part A	Administration, teachers, and trainers.

### Strategy 5:

Monitor/Evaluate READ 180 Program - We tentatively plan to monitor and evaluate our READ 180 program. We will review data monthly to monitor student progress as they continue their enrollment in the program.

Category:

Tier: Tier 1

Activity - Use Program Evaluation Tool to monitor READ 180 Program	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
We plan to use the evaluation tool to Monitor/Evaluate the READ 180 Program during the 2016-17 School Year.	Policy and Process	Tier 1	Monitor	07/01/2017	07/10/2020	\$1500	General Fund	Title I Teacher Principal
Activity - Professional Learning Principal	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
New Principal will continue MASSP professional membership to stay informed of legislative changes, have access to PD opportunities and maintain collegial relationships in the Principal role.	Professional Learning	Tier 1		07/01/2017	06/19/2020	\$3000	Title II Part A	Principal
Activity - Professional Learning Best Practices All Staff	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Best Practices--Using Data, Data Analysis, Title I Implementation and Using the Continuous School Improvement Model to improve Student achievement. 5 sessions with an MDE Approved Schoolwide Facilitator to help all staff learn how to implement the Title I plan and to address improving student achievement. Teachers will also engage in training , on how to work effectively with parents, using the Epstein model of Parent Engagement. Session led by a trained NNPS Facilitator.	Professional Learning	Tier 1	Implement	07/01/2017	08/30/2019	\$6000	Title II Part A	Principal, Deans, MDE Approved Facilitator, Teachers
Activity - Professional Learning Non Violent Crisis Intervention	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All staff will participate in training on Positive Behavior Intervention Systems and Non Violence Crisis Intervention (August 2019) facilitated by Amy Sheibar, Work Skills Corporation and Melissa Archibald, Guidance Counselor, WSC.	Professional Learning	Tier 1	Implement	07/01/2017	08/27/2021	\$0	No Funding Required	Principal, Counselor
Activity - Professional Learning Fridays	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All staff will participate in weekly professional learning opportunities on Fridays 9:00 am - 1:00pm . Best practices in Math Reading Writing, Science and Social Studies will be addressed, Project Basd Learning Implementation and using data to improve instruction. Book studies will be included as well as online opportunities and facilitated sessions by content experts (ISD consultants) and education consultants.	Professional Learning	Tier 1		07/01/2017	08/27/2021	\$7000	Title II Part A, Title I Part A	Principal, Building Leader, Consultants

## Goal 2: WSC Academy will increase student exposure to careers and college post-secondary opportunities through field trips, work study, and career workshops

### Measurable Objective 1:

90% of Eleventh and Twelfth grade students will achieve college and career readiness by attending field trips, participating in work-study, or participating in career workshops in Career & Technical by 08/28/2020 as measured by Attendance and participation in college and career ready activities coordinated by the WSC school counselor, administrators and staff .

### Strategy 1:

Field Trips/Career Workshops/Work-Study - All students in the 11th and 12th grades are offered opportunities to attend college and career ready workshops, field trips, and work-study programs coordinated by WSC Academy in conjunction with local colleges and businesses. WSC Academy provides transportation to all field trips and career workshops along with some work-study opportunities. 11th and 12th grade students are the priority students for these events so they can gather information and begin preparing for post-secondary goals for college and/or career.

Category: Career and College Ready

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Students will participate in career readiness activities to assist them in making plans for post graduation to include Plato cruising, Virtual Job Shadow inter-active programming. With the assistance of the counselor all 9th graders will create a Talent Portfolio as part of the EDP that shall include a record of student experiences , proficiencies, digital badges and accomplishments that demonstrate talents or marketable skills. Students will participate in an activites that 1) provides information on various types of careers, current and projected job openings in this state and those jobs' actual and projected wages (Career Cruising), 2) include an opportunity to explore careers and establish goals to achieve the desired career.	Career Preparation /Orientation	Tier 1		07/01/2019	06/30/2021	\$1000	General Fund	Principal, Guidance Counselor
---	---------------------------------	--------	--	------------	------------	--------	--------------	-------------------------------

### Goal 3: All Students at WSC Academy will improve Science proficiency

#### Measurable Objective 1:

100% of All Students will demonstrate student proficiency (pass rate) in assessments(State and local) anc course completion in Science by 06/11/2021 as measured by ACT, MME, NWEA, and PLATO assessments.

#### Strategy 1:

Use of Technology - Primary Delivery System - PLATO - • All content areas - • Includes classes each student is registered for

- Opens with syllabus and course overview, introduction to software
- Includes audio, visual, video, interactive activities
- Keeps and tracks student progress in all assigned classes
- Technology-based program that allows students to work at their own pace in all content areas at any time
- Begins with formative pre-test to determine course skills that are mastered or need mastering
- Required mastery level – 72% to move on to next course level
- Course modules start with tutorial that proceeds to an application and ends with a mastery quiz
- Instruction in a variety of ways to address all learning styles
- Summative unit tests and end of semester tests for mastery of course objectives
- Teacher available to offer direct instruction and assistance individually and as a small group

## Goal 4: All Students at WSC Academy will improve Social Studies Proficiency

### Measurable Objective 1:

100% of Ninth, Tenth, Eleventh and Twelfth grade Black or African-American, Asian, Bottom 30%, White, Children in a Military Family, Children in Foster Care, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Homeless, Students with Disabilities, English Learners, Two or More Races and American Indian or Alaska Native students will demonstrate student proficiency (pass rate) in their PLATO courses in Social Studies by 06/12/2020 as measured by State standardized scores and PLATO assessments..

### Strategy 1:

Use of Technology - Primary Delivery System - PLATO - • All content areas

- Includes classes each student is registered for
- Opens with syllabus and course overview, introduction to software
- Includes audio, visual, video, interactive activities
- Keeps and tracks student progress in all assigned classes
- Technology-based program that allows students to work at their own pace in all content areas at any time
- Begins with formative pre-test to determine course skills that are mastered or need mastering
- Required mastery level – 72% to move on to next course level
- Course modules start with tutorial that proceeds to an application and ends with a mastery quiz
- Instruction in a variety of ways to address all learning styles
- Summative unit tests and end of semester tests for mastery of course objectives
- Teacher available to offer direct instruction and assistance individually and as a small group

Tier: Tier 1

Activity - Small Group Direct Instruction	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students receive direct instruction based on assigned PLATO courses and student needs to enhance online content and increase overall retention of material. Instruction is delivered by the highly qualified content area teacher.	Direct Instruction	Tier 1	Implement	07/01/2017	06/25/2021	\$1500	General Fund	Teachers
Activity - Visual Learning	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Students will be shown a variety of documentaries and films to supplement/enhance the online PLATO portion of blended learning along with complimenting lessons delivered via direct instruction by the Social Studies teacher.	Curriculum Development	Tier 1	Implement	07/01/2017	06/25/2021	\$800	General Fund	Teachers
---	------------------------	--------	-----------	------------	------------	-------	--------------	----------

Activity - Monitoring/Data Analysis	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
PLATO progress reports and district and state assessments are used to analyze student progress and academic areas of need in order to provide instructional assistance and determine appropriate interventions for individual student needs.	Curriculum Development	Tier 1	Implement	07/01/2017	06/25/2021	\$1500	General Fund	Teachers

### Strategy 2:

Differentiated Instruction - Students are given direct instruction and/or alternative assignments based on their need and interest.

Category:

Research Cited: Research from Eileen

Tier: Tier 1

Activity - Visual Learning	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will be shown a variety of documentaries and films to supplement/enhance the online PLATO portion of blended learning along with complimenting lessons delivered via direct instruction by the Social Studies teacher.	Direct Instruction	Tier 1	Implement	07/01/2017	06/25/2021	\$1500	General Fund	Teachers

Activity - Resource Teacher Support	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Resource teacher provides co-teaching support in the general education classroom to meet the needs of individual IEP students. Resource teacher also pulls small groups of students for additional support during the school day to support academic and behavioral needs as determined by IEP's.	Academic Support Program	Tier 3	Implement	07/01/2017	06/25/2021	\$5000	General Fund	Special Education teacher

Activity - Extended Time	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Through the blending learning model via the PLATO portion of the program, students are able to work at their own pace in all courses. Students are not penalized for needing extended time to complete course work as long as progress is demonstrated and the course is completed within a semester's time.	Academic Support Program	Tier 1	Implement	07/01/2017	08/27/2021	\$6500	Section 31a	Teachers

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Activity - MTSS Intervention	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All teachers will implement MTSS by developing Individual Learning Plans for all students that will include specific interventions as determined by the monthly PLC data analysis meetings to increase student achievement and course completion. a designated 45 min per content area intervention/enrichment period will be implemented by all teachers and program will be monitored and discuss as part of bi-weekly PLC meetings.	Academic Support Program	Tier 2		09/06/2019	06/11/2021	\$12000	Section 31a, Title I Part A	Principap, teacher, paraprofessionals, counselor

### Strategy 3:

Extended Learning Opportunities - Students will be given the opportunity to participate in extended learning opportunities via a Book Club, Project Based Learning, alternate assignments for all courses, and summer school.

Category:

Research Cited: McCarthy's website

Tier: Tier 1

Activity - Alternative Assignments	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will develop alternate assignments, that meet state standards, to the regular PLATO curriculum for students based on student interest and individual need to ensure understanding of content material.	Curriculum Development	Tier 1	Implement	07/01/2017	06/30/2021	\$2500	General Fund	Teachers

Activity - Summer School	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Summer school will be available to all students in order to make up credits toward graduation.	Direct Instruction	Tier 2	Implement	09/02/2014	06/25/2021	\$25000	Section 31a	Administration and teachers

Activity - Parent Engagement	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
WSC Academy hosted parent nights focusing on aspects of curriculum and school processes. These meetings will focus on targeted students and help explain to parents the process of helping the targeted students achieve growth in goal areas. 2 total parent Title I nights with other parent meetings/workshops offered throughout the year.	Community Engagement, Academic Support Program, Parent Involvement	Tier 1		07/01/2017	06/30/2021	\$500	Title I Part A	Principal, Staff, Parents

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

### Strategy 4:

Projects - Students participate in inquiry based projects that explore academic subject areas. Projects involve research, collaboration, and hands on learning. This program is open to all students.

Category: Career and College Ready

Research Cited: NEED RESOURCE

Tier: Tier 1

Activity - Projects	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
<p>1. Greek Mythology Project - Students researched the Olympian gods and goddesses, wrote a Homeric Hymn to their assigned god or goddess and presented the information to the class as part of Ancient Greek History Day. This project correlated with students study of the Odyssey.</p> <p>2. Greek Architecture Project - Students worked in teams to construct Grecian columns in the three Ancient Greek orders- Doric, Ionic and Corinthian. Students research the architectural styles of each order and worked with papier mache to create their life-sized columns. This project followed a unit on ancient history.</p> <p>3. Immigration Timeline Project - Students created a wall-length timeline documenting the history of immigration in the United States. Students took part in inquiry-based Socratic seminars dealing with issues of immigration and the history of nativism in the United States. Each student researched a different period of time, looking at the ways that immigrants were viewed during that time period. Students covered a variety of eras, ranging from the use of Chinese immigrant labor during the building of the Transcontinental Railroad, the prejudice against Irish-Americans during the Industrial Revolution and the internment of Japanese-Americans during World War II.</p> <p>4. Yearbook - Students design and publish a school wide yearbook. Students use skills in graphic design, photography, writing and editing to complete the yearbook project.</p>	Other	Tier 1	Implement	07/01/2017	07/30/2021	\$5000	General Fund	Teachers

Activity - PBL Training	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will continue to utilize PBL training resources as part of the blended learning model. Teachers will continue to implement projects with guidance and resources from their PBL trainings along with professional development activities and trainings.	Professional Learning	Tier 1	Monitor	07/01/2017	06/30/2021	\$5500	Title II Part A	Administration, teachers, and trainers

## Goal 5: All students at WSC Academy will improve Math proficiency

### Measurable Objective 1:

100% of All Students will demonstrate student proficiency (pass rate) in district assessments, state assessments and course completion in Mathematics by 06/12/2020 as measured by NWEA district assessments and Plato assessments.

### Strategy 1:

Use of Technology - Primary Delivery System - PLATO - • All content areas - • Includes classes each student is registered for

- Opens with syllabus and course overview, introduction to software
- Includes audio, visual, video, interactive activities
- Keeps and tracks student progress in all assigned classes
- Technology-based program that allows students to work at their own pace in all content areas at any time
- Begins with formative pre-test to determine course skills that are mastered or need mastering
- Required mastery level – 72% to move on to next course level
- Course modules start with tutorial that proceeds to an application and ends with a mastery quiz
- Instruction in a variety of ways to address all learning styles
- Summative unit tests and end of semester tests for mastery of course objectives
- Teacher available to offer direct instruction and assistance individually and as a small group

Tier:

Activity - Alternative Assignments	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will develop alternate assignments to the regular PLATO curriculum, that continue to meet state standards, for students based on student interest and individual need.	Curriculum Development	Tier 1	Implement	07/01/2017	06/25/2021	\$2500	General Fund	Teachers

Activity - Summer School	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Summer school will be available to all students in order to make up credits toward graduation.	Academic Support Program	Tier 1	Implement	09/02/2014	06/25/2021	\$25000	Section 31a	Administration and teachers

Activity - Foodtopia	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students will have the opportunity to participate in volunteering at the WSC snack bar - duties include selling, purchasing, marketing and taking inventory. This is overseen by the math teacher.	Career Preparation /Orientation	Tier 1	Implement	07/01/2017	08/30/2019	\$150	General Fund	Principal, Math Teacher

### Strategy 4:

Project Based Learning - Students participate in inquiry based projects that explore academic subject areas. Projects involve research, collaboration, and hands on learning to enhance critical thinking skills.

Category: Mathematics

Research Cited: Project Based Learning Resources: [www.openingpaths.org](http://www.openingpaths.org); [www.bie.org](http://www.bie.org)

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Tier: Tier 1

Activity - Projects	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
<p>Student Store Project: Students acquired the skills necessary to run a small business (Foodtopia) within the school. Students created a business plan and scale model that they presented to the school board and were also responsible for the day to day running of the store. Students were required to solve real world problems and to collaborate with their peers and staff for this project.</p> <p>The Cell Phone Plan Project Personal Finance: Students researched cell phones and usage plans from five different companies in order to choose the plan that would be right for them and their families. The students utilized research and mathematics skills, while also producing a persuasive presentation where students chose the best plan.</p> <p>Music Catalog: Students examine ipod/spotify library and categorize their music in to no less than 5 different categories. Then they calculate the percents and based on those figures predict the next 80 songs they will download. The create a report complete with pie charts justifying the prediction.</p> <p>Vacation Planning: Students pick a resort or a fabulous vacation somewhere nice. They account for all expenditures and calculate how much it will cost. After factoring for cost the students figure out how long it will take them to make the money to go on the vacation. Students need to use minimum wage and account for taxes being taken out using a paycheck calculator online.</p>	Other	Tier 1	Implement	07/01/2017	06/30/2021	\$5000	General Fund	Teachers

Activity - PBL Training	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will continue to utilize PBL as part of a blended learning model. Teachers will continue to implement projects with guidance and resources from PBL training and professional development activities and trainings.	Professional Learning	Tier 1	Implement	07/01/2017	06/25/2021	\$5500	Title II Part A	Administration and teachers

## Goal 6: Higher Performing Student Achievement

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

### Measurable Objective 1:

80% of Gifted and Talented students will increase student growth by demonstrating growth on district assessments in the area of English Language Arts in English Language Arts by 06/19/2020 as measured by increased achievement scores on district assessments from Fall to Spring.

### Strategy 1:

Direct Instruction - Students will participate in activities and lessons that focus on higher level thinking skills with increased exposure to more challenging literary text guided by the English Language Arts teacher.

Category: English/Language Arts

Tier: Tier 1

Activity - Higher Performing Direct Instruction Students	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Students who require more challenging lessons/texts to demonstrate growth beyond what is offered through on-line learning and in the general education classroom will be offered opportunities to participate in instructional lessons and literature circles, taught by the ELA teacher, that will focus on higher level skill building in this content area.	Direct Instruction	Tier 1		07/01/2017	06/26/2020	\$250	General Fund	English/Language Arts Teacher, Administration
Activity - Honor Roll	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
WSC will develop an honor roll system to acknowledge high performing students and motivate them to continue to achieve at this level.	Extra Curricular	Tier 1	Implement	06/30/2017	06/19/2020	\$400	Section 31a	School Counselor, Administration, Teachers
Activity - Professional Learning	Activity Type	Tier	Phase	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
All staff will participate in additional training in the use of utilizing data, specifically Power School, to identify student needs and improve instruction to result in improved academic achievement by Barbara Corio	Academic Support Program, Curriculum Development, Professional Learning	Tier 1	Implement	08/01/2018	06/03/2019	\$2000	Title II Part A	Building Leader, Principal, Clerical support all teaching staff

## Goal 7: All students in the subgroups of special education, English language learners, and homeless will be provided with services appropriate to their individual needs so their overall achievement will increase in all content areas

### Measurable Objective 1:

collaborate to identify and provide appropriate services to students in the subgroups of special education, English language learners, homeless, foster, and military by 08/30/2019 as measured by identification of students and progress monitoring of appropriate interventions.

### (shared) Strategy 1:

Identification of ELL/Homeless/Foster/Military - Students will receive a questionnaire upon registration to identify potential English language learners, students who receive services for special education, homeless, foster, or military status. Records will be requested by the previous school to help determine any prior services. Students will be provided with appropriate interventions and/or resources based on individual needs.

Projects	Activities for Project Based Learning in Science include: Owl Pellet dissection Pond water exploration lab pH testing lab Phase changes using a temperature probe lab Exothermic vs. endothermic reaction lab	Career Preparation /Orientation	Tier 1	Implement	07/01/2017	06/25/2021	\$5000	Teachers

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Projects	<p>1. Greek Mythology Project - Students researched the Olympian gods and goddesses, wrote a Homeric Hymn to their assigned god or goddess and presented the information to the class as part of Ancient Greek History Day. This project correlated with students study of the Odyssey.</p> <p>2. Greek Architecture Project - Students worked in teams to construct Grecian columns in the three Ancient Greek orders- Doric, Ionic and Corinthian. Students research the architectural styles of each order and worked with papier mache to create their life-sized columns. This project followed a unit on ancient history.</p> <p>3. Immigration Timeline Project - Students created a wall-length timeline documenting the history of immigration in the United States. Students took part in inquiry-based Socratic seminars dealing with issues of immigration and the history of nativism in the United States. Each student researched a different period of time, looking at the ways that immigrants were viewed during that time period. Students covered a variety of eras, ranging from the use of Chinese immigrant labor during the building of the Transcontinental Railroad, the prejudice against Irish-Americans during the Industrial Revolution and the internment of Japanese-Americans during World War II.</p> <p>4. Yearbook - Students design and publish a school wide yearbook. Students use skills in graphic design, photography, writing and editing to complete the yearbook project.</p>	Other	Tier 1	Implement	07/01/2017	07/30/2021	\$5000	Teachers
Resource Teacher Support	Resource teacher provides co-teaching support in the general education classroom to meet the needs of individual IEP students. Resource teacher also pulls small groups of students for additional support during the school day based on individual student needs and IEP determinations.	Academic Support Program	Tier 3	Implement	07/01/2017	06/30/2021	\$5000	Special education teacher
EDP/School to Work Transition	All students will create, with the aid of the Counselor and Education Development Plan which will address their plan of study and focus on their post graduation goals.	Behavioral Support Program, Academic Support Program, Career Preparation /Orientation	Tier 1		09/02/2019	06/30/2021	\$500	Counselor, Principal Building Leader

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

<p>Projects</p>	<p>Student Store Project: Students acquired the skills necessary to run a small business (Foodtopia) within the school. Students created a business plan and scale model that they presented to the school board and were also responsible for the day to day running of the store. Students were required to solve real world problems and to collaborate with their peers and staff for this project.</p> <p>The Cell Phone Plan Project Personal Finance: Students researched cell phones and usage plans from five different companies in order to choose the plan that would be right for them and their families. The students utilized research and mathematics skills, while also producing a persuasive presentation where students chose the best plan.</p> <p>Music Catalog: Students examine ipod/spotify library and categorize their music into no less than 5 different categories. Then they calculate the percents and based on those figures predict the next 80 songs they will download. They create a report complete with pie charts justifying the prediction.</p> <p>Vacation Planning: Students pick a resort or a fabulous vacation somewhere nice. They account for all expenditures and calculate how much it will cost. After factoring for cost the students figure out how long it will take them to make the money to go on the vacation. Students need to use minimum wage and account for taxes being taken out using a paycheck calculator online.</p>	<p>Other</p>	<p>Tier 1</p>	<p>Implement</p>	<p>07/01/2017</p>	<p>06/30/2021</p>	<p>\$5000</p>	<p>Teachers</p>
<p>Visual Learning</p>	<p>Students will be shown a variety of documentaries and films to supplement/enhance the online PLATO portion of blended learning along with complimenting lessons delivered via direct instruction by the Social Studies teacher.</p>	<p>Direct Instruction</p>	<p>Tier 1</p>	<p>Implement</p>	<p>07/01/2017</p>	<p>06/25/2021</p>	<p>\$1500</p>	<p>Teachers</p>

## Single Building District Improvement Plan

WSC Academy - Ypsilanti Campus

Projects	Projects students complete in English for Project Based Learning include: Character social media posters Research and write persuasive debates in MLA format Significant author research and paper/poster Creative short story Poetry portfolio	Other, Career Preparation /Orientation	Tier 1	Implement	07/01/2017	06/19/2020	\$5000	Teachers
Book Club	Students have the opportunity to participate in a book club where they, as a group, analyze, and discuss a particular novel. This activity is above and beyond what is required of the PLATO courses.	Academic Support Program	Tier 2	Implement	07/01/2017	06/26/2020	\$1000	Teachers
Resource Teacher Support	Resource teacher provides co-teaching support in the general education classroom and small group or individualized resource room support to meet the needs of individual IEP students.	Academic Support Program	Tier 3	Implement	07/01/2017	06/18/2021	\$5000	Special Education teacher
Visual Learning	Students will participate in viewing a variety of documentaries and films to supplement/enhance the PLATO Science curriculum and direct instruction/lab activities.	Curriculum Development	Tier 1	Implement	07/01/2017	06/30/2021	\$800	Teachers
Mentorship/Internship	Students will participate in Mentorship program and will participate in Internship programs through the partnership with Work Skills Corporation in Graphics/sublimation and phlebotomy, and students will have the opportunity to participate in Dual Enrollment opportunities through Washtenaw Community College	Career Preparation /Orientation	Tier 1	Implement	09/02/2019	06/30/2020	\$100000	Building Leader, Principal and Counselor
Resource Teacher Support	Resource teacher provides co-teaching support in the general education classroom to meet the needs of individual IEP students. Resource teacher also pulls small groups of students for additional support during the school day based on student needs.	Academic Support Program	Tier 3	Implement	07/01/2017	06/30/2021	\$5000	Special education teacher
